

**General Tariff Information**

Service Provider Name	Ooredoo Q.P.S.C.
Tariff Number	B01-01
Marketing Name of the Retail Offer	Business Landline
Tariff Type	Standard Permanent
Duration	N / A
Customer Group	Business
Tariff Effective Date	16 August 2020
Tariff Version Number	008

1. Definitions

- 1.1 Call charges - means charges payable per call
- 1.2 Call Holding - means a feature in which a user may retain an existing call while accepting or originating another call.
- 1.3 Call Hunting - is a facility in which allows an incoming call to be Terminated on a telephone number in a group of telephone numbers. There will be one "pilot number" which will be dialed by any person, and any call to that "pilot number" would land on any of the free lines in a group which belongs to the pilot number group
- 1.4 Call Waiting- means a feature that alerts someone using the phone to an incoming call and allows switching between the current call and the new call.
- 1.5 Centrex- means central exchange which is a service providing switching at a central office instead of at the customer's premises.
- 1.6 Change number Interception - meaning when a subscriber number is changed the caller will be provided with an automated request to confirm the number he dialed and based on the dialed number will be provided with the new number of subscriber.
- 1.7 Conference call - means calls involving more than one line with a maximum of 3 persons.
- 1.8 DEL - means Direct Exchange Line which provides a dedicated fixed phone line.
- 1.9 Follow Me - provides an advanced call forwarding facility, subscribers can set up the call forward either in sequence or at the same time to a list of numbers. "Follow me" forwards calls to numbers based on a time schedule.
- 1.10 Hot Line Service – A service feature that configures a line to automatically dial a pre-set number when the handset is lifted.
- 1.11 ISDN - means Integrated Services Digital Network. ISDN is an international standard for digital telephony communication.
- 1.12 Monthly rental fee - means service rental fee payable per month.
- 1.13 OLO - means Other Licensed Operator.
- 1.14 Ooredoo - means Ooredoo Q.P.S.C. (formerly (Qtel) Q.S.C.)
- 1.15 Ownership Change - Mean the subscription changed from one owner to another owner including the responsibilities.
- 1.16 Peak / off-peak calls - Peak means calls made during the period of most heavy calling traffic. Off-peak calls means calls made outside peak times and generally include lower calling rates which are set out in the tariff where applicable.
- 1.17 PRI - means Primary Rate Interface. ISDN PRI consists of up to 30 B-channels and 1 D-channel and may be used for voice and/or data service.

- 1.18** Service - means Business Landline Service.
- 1.19** SIP – Trunking Standard – a link which provides a single linear path to the customer location. In the event of failure of this path the customer loses connectivity and faces downtime
- 1.20** SIP Trunking Premium – provides two redundant and diverse paths to the customers’ location via the fixed access network. In the event of failure on one of the paths the other begins operation providing seamless connectivity and increased uptime. By opting for a SIP-Trunking Premium link, the customer does not have to invest in building diversity and redundancy themselves.
- 1.21** Subscriber - means the person or entity that enters into an agreement with Ooredoo to receive and pay for service.
- 1.22** User - means the natural person who uses the service.

2. Tariff Terms and Conditions

- 2.1** This tariff is for permanent standard service.
- 2.2** This tariff contains charges and conditions applicable to the provision DEL a PRI and SIP-Trunking Standard and Premium services
- 2.3** This tariff will be effective as of the date established in this tariff and will automatically cease being effective if, Ooredoo publishes a new tariff for this service or publishes a notification on its webpage that this tariff is no longer effective subject to CRA approval if required.
- 2.4** From time to time Ooredoo may publish promotions and readjustments on its webpage or by other means. Such promotions and readjustments will suspend or modify this tariff as specified by Ooredoo as of the date Ooredoo publishes such promotions or readjustments subject to CRA approval, if required.
- 2.5** These Service terms and conditions are in addition to the terms and conditions specified in Ooredoo's General Terms and Conditions for the Master Services Agreement for Business Telecommunications Services where referenced.

3. DEL - Direct Exchange Line Service

- 3.1 Description:** Landline Service provides subscribers with a landline telephone service, accessible 24 hours a day. Regional, national and international connections are possible. Landline is mainly provided via a wired access network. Alternative means (such as WLL) may be used when a wired access network is not available in the Subscriber's location. Additional charges may apply for remote location services

3.2

20	2,000	2,400
30	2,000	3,600
40	4,000	4,800
50	4,000	6,000

60	4,000	7,200
70	6,000	8,400
80	6,000	9,600
90	6,000	10,800
100	8,000	12,000
110	8,000	13,200
120	8,000	14,400
130	10,000	15,600
140	10,000	16,800
150	10,000	18,000
160	12,000	19,200
170	12,000	20,400
180	12,000	21,600
190	14,000	22,800
200	14,000	24,000
210	14,000	25,200
220	16,000	26,400
230	16,000	27,600
240	16,000	28,800
250	18,000	30,000
260	18,000	31,200
270	18,000	32,400
280	20,000	33,600
290	20,000	34,800
300	20,000	36,000

Effective date of these prices will start 16th of August 2017. Plans 300 PRI and above are available to customers. The price structure will be QAR 1200 per 10 channels per month. The connection fee for every block of 30 channels is QAR 2000 including partial block (example, connection of 10 or 20 channels will be fully charged of QAR 2000)

4.2.1 Prices per 10 channels and more is QAR 120 per channel/month

5. Hosted IP Centrex

This service is grandfathered and not sold anymore from xx of xx 2019.

5.1 Description: Hosted IP Centrex is designed for enterprise locations requiring all the features of a PBX or key system, except that the features and intelligence reside outside of the Company with Ooredoo.

5.2 Conditions:

5.2.1 Call rates will apply (as set out in section 11)

5.2.2 Subscribers will pay for the IP access separately based on the bandwidth required for number of voice trunks.

5.2.3 The IP access tariff is in detail on the CRA approved IP VPN tariff (Reference: B 14-01) on the Ooredoo Regulatory website.

- 5.2.4** To the extent applicable, terms and conditions for necessary network cabling, equipment room configuration, equipment rental or purchase and applicable maintenance are covered by separate agreement between Subscriber and Ooredoo according to the Subscriber's particular needs.

5.3 Charging for Hosted IP Centrex:

		One time setup charges	Monthly recurring charges
Hosted IP Centrex	Site charge	QR 3,000 per site	
	Extension charge	QR 50 per extension	QR 45 for up to 99 extensions QR 40 for 100 to 299 extensions QR 35 for 300 + extensions

6. Business Collaboration Service

Business Collaboration Services are Managed IP Telephony service provided from Cisco Hosted Collaboration (CHS) Platform, (next-generation unified communication and collaboration platform). This platform is hosted in Ooredoo Data centers in Qatar. The Business Collaboration Services (BSC) replaces the traditional PBX and allows the subscribers to use cloud based telephony services instead.

The service also provides Messaging services that integrate with Ooredoo CHS are provided via Cisco's Unity Connection server, an enterprise-class messaging platform that integrates automatic call distribution functions, voicemail boxes, voicemail to email functions, connectivity with Microsoft Exchange and other features.

There are two service variants, Business Collaboration Solution (BCS) and Business Collaboration Key (BCK).

6.1 Business Collaboration Solution (BCS)

6.1.1 Description

This Service provides communication and collaboration primarily **in the office**, this is why **fixed connectivity** between Ooredoo and the customer's site/premises is a prerequisite.

To take advantage of the service's rich IP features, office endpoints like desk phones and/or video-conference consoles are necessary.

6.1.2 Service Features and Service Profiles

Available Service Features are:

- **IP-Telephony features** : includes Call Forwarding, Call Waiting, Call Hold, Speed Dial, Personal Address Book, Caller ID, Conference Calling, Call Transfer, Call Lists (missed, received, placed)
- **Unified Communications:** Voice, video, instant messaging on a single device & across devices

- **Unified Messaging:** Voice messaging unified to e-mail system
- **Point to Point video:** Video conversation between actual or soft terminals
- **Mobility:** Soft client to access collaboration service on mobile device
- **Instant Messaging & Presence:** Text messaging between users & availability information
- **Single Number Reach:** Enables you to answer your landline on your mobile
- **Voice (IP) VPN:** is an integral part of the solution, enabling connectivity from customer site to Ooredoo HCS platform for the use of desk IP phones.

Available Service Profiles are:

- Premium;
- Advanced; and
- Standard.

The subscriber can select any one or two or all 3 of the above Service Profiles for their telephony users, depending on their end-users features needs and business requirements; IP Telephony, Messaging and other features available with each profile is defined below:

Profiles	Features							
	Maximum Number of Devices	IP Telephony	Unified Communications	Unified Messaging	Point to Point Video	Mobility	IM & Presence	Single number Reach
Premium	10	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Advanced	2	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Standard	1	Yes		Yes			Yes	Yes

- A subscriber may subscribe to one or all 3 from the above Service Profiles above for HCS service;
- IP Phones: Customer can also opt to take Cisco IP Phones from Ooredoo (optionally) for their end-users;
- In case, the customer already has the IP Phones available, the customer has to inform the Make and the Model of those Phones for Ooredoo to check the compatibility with the BCS platform.

6.1.3 Charges Rates for BCS Services

The following charge rates apply:

- Monthly Recurring Charges

Profile	Premium (QR per month)	Advanced (QR per month)	Standard (QR per month)
Max devices	10	2	1
1 to 99 Subs	100	70	50
100 to 299 Subs	70	65	60
>300 Subs	50	45	40

- One-off charges

	QAR one-off
Set-up fee per Site	3,000
Activation fee per subscriber	50

- Voice VPN Charges:

Profiles	Voice VPN bandwidth Monthly Charges	Number of Employees (OR total Telephony users)
One time Charges		QR 200
512 kbps	QR 600	Up to 20 users
1 mbps	QR 900	21—60
2 mbps	QR 1200	61- 120
4 Mbps	QR 2400	121- 240
6Mbps	QR 3600	241- 360
8 Mbps	QR 4800	361- 480
10 Mbps	QR 6000	481 - 600
16 Mbps	QR 9600	601 - 1000

For more than 1000 users, where Voice VPN bandwidth requirement is more than 16 Mbps, the MPLS VPN Price (B14-01 National IP VPN can be found on <https://www.ooredoo.qa/portal/OoredooQatar/regulatory>) tariff with Platinum CoS can be used.

The monthly charges above apply for single fibre Voice VPN. For redundant fibre used for First Class SLA¹ the monthly charges will be 1.4 multiples of the above rates.

- Usage charges

All voice calls and messages generated directly from the End user device using the fixed handset will be charged at the corresponding rate in Section 11.

All voices calls generated via a mobile handset, from a Business Group Mobile subscription (provided in some variants) will be charged at the corresponding Business Mobile Services tariff charge rates (as documented in Ooredoo Service Tariff B03-01).

6.2 Business Collaboration Key (BCK)

6.2.1 Description

This service is mainly targeting smaller companies with high mobility.

This is why customers can use all the communication / collaboration features through their mobile device and dedicated office VPN connectivity is optional.

¹ For further information on the SLA's for this service, refer to the section 17 below.

6.2.2 Service Features and Service Profiles

Available Service Features are:

- **Unified Communications:** Voice, video, instant messaging on a single device & across devices
- **Unified Messaging:** Voice messaging unified to e-mail system
- **Point to Point video:** Video conversation between actual or soft terminals
- **Mobility:** Soft client to access collaboration service on mobile device
- **Instant Messaging & Presence:** Text messaging between users & availability information

Only one service profile is available in order to minimize complexity

For BCK Service, below is the minimum order requirement

- Minimum 2 users
- Maximum 30 users

6.2.3 Charges Rates for BCK Services

The following charge rates apply:

- One-off charges

	QAR one-off
Set-up fee per Site	0
Activation fee per subscriber	70

- Usage charges as per the current Fixed Line tariff.
- Usages charges as per the current B03-01 Business Mobile Services.

6.3 Commencement of Service:

6.3.1 This service shall commence from the date of activation of service.

6.3.2 Minimum Service Period: The minimum service period is 3 months commencing from the date of activation of service.

7. SIP Trunking

These lines are for use with the Hosted IP Centrex service above.

7.1 Description: SIP Trunking Standard (SIP T Standard): a link which provides a single linear path to the customer location. In the event of failure of this path the customer loses connectivity and faces downtime.

7.2 Description: SIP Trunking Premium (SIP T Premium): provides two redundant and diverse paths to the customer's location via the fixed access network. In the event of failure on one of the paths the other begins operation providing seamless connectivity and increased uptime. By opting for a SIP-Trunking Premium link, the customer does not have to invest in building diversity and redundancy themselves.

7.3 Charging for SIP Trunking: Please see below for SIP Trunking Standard and SIP-Trunking Premium pricing.

7.3.1 The base tariff including the number of channels, installation charges and Standard Monthly rental.

No. of Channels	Connection Fee (QR)	1. SIP-T Standard (QR p.m.)	2. SIP-T Premium (QR p.m.)
10	2,000	1,050	1,470

30	2,000	2,450	3,430
40	4,000	3,500	4,900
50	4,000	4,310	6,034
60	4,000	4,900	6,860
70	6,000	5,950	8,330
80	6,000	6,760	9,464
90	6,000	7,350	10,290
100	8,000	8,400	11,760
110	8,000	9,210	12,894
120	8,000	9,800	13,720
130	10,000	10,850	15,190
140	10,000	11,660	16,324
150	10,000	12,250	17,150
160	12,000	13,300	18,620
170	12,000	14,110	19,754
180	12,000	14,700	20,850
190	14,000	15,750	22,050
200	14,000	16,560	23,184
210	14,000	17,150	24,010
220	16,000	18,200	25,480
230	16,000	19,010	26,614
240	16,000	19,600	27,440
250	18,000	20,650	28,910
260	18,000	21,460	30,044
270	18,000	22,050	30,870
280	20,000	23,100	32,340
290	20,000	23,910	33,474
300	20,000	24,500	34,300

7.3.2 Call rates will apply (as set out in section 11)

8. Voice only IP Telephony Line

The following charges are per site.

8.1 Voice only IP Telephony Line, without Redundancy (Required with BCS Service, optional for BCK)

Profiles (Mbps)	QR p.m per site

0.512	600
1	900
2 to 15	1200 per 2Mbps
16	9,600
24	13,938
32	15,813
50	19,563
100	25,813
200	30,000
500	42,194
1,024	53,075

One Time Charges per site is QAR 200

8.2 Tariff-Voice VPN with Redundancy (Required with BCS Service, optional for BCK)

These will be 40% in addition to the charges above.

One Time Charges per site is QAR 200.

9. Charging on optional Value Added Services for DEL/ ISDN PRI/ SIP-T

Optional Value Added Services	One time setup charges (QR)	Monthly recurring (QR)

12.2.1 Regulation: Easy to remember numbers remain under the administrative jurisdiction of CRA, which may require surrender or reassignment of certain telephone numbers at any time. In no case does Ooredoo guarantee the right to use any easy to remember number for more than one year following the date of assignment.

12.2.2 Charging: Easy to remember numbers are subject to a one-time charge as follows:

Number Classification	Applicable one-time charge (QR)
Royal	1,000,000
Diamond plus (with "0"s)	500,000
Diamond plus	300,000
Diamond (with "0"s)	200,000
Diamond	150,000
Platinum Plus (with "0"s)	50,000
Platinum Plus	40,000
Platinum (with "0"s)	35,000
Platinum	25,000
Gold Plus (with "0"s)	20,000
Gold Plus	15,000
Gold (with "0"s)	13,000
Gold	10,000
Silver Plus (with "0"s)	7,500
Silver Plus	6,000
Silver (with "0"s)	5,500
Silver	4,500
Bronze (with "0"s)	4,000
Bronze	3,000
Pearl (with "0"s)	2,500

Pearl	1,500
Mercury (with "0"s)	1,000

13. Hosted Audio Conferencing Service

13.1 Service Description: Hosted Audio Conferencing service is a fully-managed, network-based audio conferencing service.

13.2 Conditions:

13.2.1 Access to the Conferencing Website: As part of the Service, Ooredoo provides subscribers with a unique username and PIN numbers which can then be used by the Subscriber to schedule conference calls at their discretion via Ooredoo's interactive Conferencing Website.

13.2.2 Scheduling a Conference Call: The interactive conferencing platform will ask for Name and Contact Information for each Conference Participant and call that Participant at the time of the conference call. Additionally, Users can also "dial-in" to the conference platform to attend a conference call (Freephone dial-in option is not available). A maximum of 20 users can dial into conference at the same time. International dial in is available and can dial into conference.

13.3 Charging:

13.3.1 Subscription: Subscribers will be charged a onetime subscription fee of QR 500. There is no contract length associated with the conferencing service.

13.3.2 Usage Charges: Usage charges are QR 0.50 per minute per user of Conferencing time.

14. Three Digit Codes:

14.1 Description: a three digit number code service that can be used for value added services.

14.2 Conditions: customers calling to the short codes (excluding emergency services) will get charged for SMS or calling for QAR 0 – 100 (depends on the service short code)

14.3 Charging: customers using this service will be charged QAR 10,000 per month.

15. Service Provider obligations

- 15.1** Commencement of Service: The service shall commence from the date of activation of service.
- 15.2** Responsibility for service: Ooredoo is responsible for service only up to the Customer Premises Equipment and shall not be responsible for any quality of service, continuity of service or other matters impacted by subscriber cabling, equipment or other facilities (not provided by Ooredoo) beyond this point.
- 15.3** Service Provisioning Time: If the customer location is feasible from a network perspective, Ooredoo endeavor to provision the services within a lead time of 4-6 week from the date of release of Purchase Order.
- 15.4** Service availability and limits: Certain factors, such as network changes, traffic volume, transmission limits, service outages, technical limitations, signal strength, customer device, terrain, structures, weather, or other conditions that may arise from time to time, may interfere with actual service quality and availability.

16. Subscriber obligations

- 16.1** Equipment: The Subscriber shall comply with any reasonable request by Ooredoo concerning the configuration of their devices and/or the use of the service.
- 16.2** Minimum service period: The service will be provided for a minimum service period of three (3) months from the date of activation.
- 16.3** Cancellation: If a Subscriber terminates the contract before the end of the minimum service period term, the Subscriber will be liable to pay the full charges for duration for the minimum service period.
- 16.4** Equipment: Importation of suitable, type-approved equipment may be undertaken following approval by Ooredoo.
- 16.5** Assignment of service: The subscriber undertakes to use the service personally and for their private interest, and shall not transfer the service or assign it to a third party without obtaining Ooredoo's prior written consent.
- 16.6** Unlicensed Services: The Subscriber may not use the Service to provide any kind of telecommunications services that require a license from CRA. Failure to comply with this provision may result in immediate cessation of service without notice.

17. Service Level Agreement

17.1 Service Level Agreement for Hosted Collaboration Service (HCS)

17.1.1 Ooredoo offers SLA as set out below to identify and define Service and support levels provided by Ooredoo to the Subscriber of Hosted Collaboration Service ("Service")

17.1.2 If the Subscriber qualifies for the SLA it may be incorporated into and shall form part of the Service Agreement for the supply of the Service by Ooredoo to the Subscriber pursuant to the terms of the Service Agreement.

17.2 Service Level Agreement:

17.2.1 Access Circuits and Wide Area network connectivity required for the Service must be provided and maintained by Ooredoo. This SLA does not apply if Access Circuits are provided by Customer itself or by a third party.

17.2.2 Ooredoo records of network performance data shall be the basis for all SLA calculations and determinations.

17.3 Definitions:

17.3.1 Demarcation (or Service Access) Point: The Demarcation Point, or Service Access Point is defined as where Ooredoo SLA responsibility ends and customer responsibility begins, and is identified specifically per site in the site survey design. Ooredoo demarcation point for Hosted Collaboration Service services will be **till Ooredoo CPE that** will be placed at customer site.

17.3.2 Mean Time to Restore (MTTR) Service Commitment - is the average time to restore the service after reporting an incident; this time includes the time to diagnose and locate the fault. The MTTR is measured from time when a Fault Ticket has been logged by OOREDOO Customer Services and to the Fault Ticket has been resolved, which is the time when the Service has been restored and is operational.

17.3.3 Response Time Commitment - is defined as the time taken for the OOREDOO support team to acknowledge the Incident trouble ticket within the response timescales defined in the SLA matrix. This acknowledgement will confirm receipt of the ticket, its Severity and indicate that diagnosis has commenced.

17.3.4 End to End Client Network Availability - Service Unavailability shall mean a failure resulting in Customer being unable to connect to the OOREDOO Network from Customer's location. Service Unavailability shall not include failure as a result of OOREDOO Network planned/scheduled maintenance, other planned outages, packet loss, problems with Customer's applications, equipment or facilities, acts or omissions of Customer, any use or user of the service authorized by Customer, or Force Majeure.

17.3.5 Service Restoration Commitment - Service Restoration (SR) Commitment is the commitment from OOREDOO for the restoration of the service in the event of a fault. It is defined in terms of Response Time and Mean Time to Restore Service (MTTR). Service Restoration can include the provision of a Workaround.

17.3.6 Severity Priority 1 (P1) - Major Service affecting - Is an Incident when a Customer Site experiences a total loss of Service. If no correction is immediately available but a

Workaround is created, the P1 Incident will be closed and a P2 Incident will be opened. The object is to neutralize a P1 Incident as soon as possible.

- 17.3.7** Severity Priority 2 (P2) – Partial Service Affecting - Is an Incident that results in a partial service degradation of performance or a loss of resilience or redundancy of the Site but which does not result in a total loss of Service.

17.4 Scheduled Maintenance:

- 17.4.1** Scheduled maintenance and upgrade by Ooredoo on their network will necessarily occasionally cause downtime periods that may affect the Service provided to the Customer. During these periods, service is not guaranteed.
- 17.4.2** In addition, there will be rare occasions when planned maintenance may need to be undertaken outside of these times. In these instances the customer will be advised 48 hours in advance of any planned outage which is likely to affect the Customer's Services, and if necessary a workaround will be put in place to ensure the uninterrupted continuation of the Customer's business. Notice of such maintenance will be provided to the customer by a method elected by Ooredoo (telephone, e-mail or fax).

17.5 End to End Client Network Availability

- 17.5.1** Service Unavailability shall mean a failure resulting in Customer being unable to connect to the Ooredoo network from the Ooredoo CPE located at Customer's location. Service Unavailability shall not include failure as a result of Ooredoo Network planned/scheduled maintenance, other planned outages, packet loss, problems with Customer's applications, equipment or facilities, acts or omissions of Customer, any use or user of the service authorized by Customer, Force Majeure.

- 17.6** HCS Standard: It is a HCS service delivered over a single last Mile

- 17.7** HCS Premium: It is a HCS service with redundant last Mile.

- 17.7.1** Subject to feasibility, a subscriber may choose a redundancy with diversity service which duplicate the last mile access from two network points on the Ooredoo network. Redundancy is ensured by providing two fibres with diversity by ensuring that both the fibers do not share same trench.

- 17.7.2 Condition:** The Subscriber must provide an additional duct from the subscriber premise to the outside boundary wall of the site and all necessary links from inside the premise to the outside boundary wall.

Service	SLA Parameter	Applicability	
Domain		HCS Standard	HCS Premium (First Class SLA)
Availability	End to End Client Network Availability	99.0%	99.5%

Incident Management	Average Response Time - All Faults	8 hours	2 hours
Incident Management	Average MTTR - P1 Incidents (within city limits)	10 hours	6 hours
Incident Management	Average MTTR - P1 Incidents (outside city limits)	24 hours	12 hours
Incident Management	Average MTTR - P2 Incidents	48 hours	24 hours

17.7.3 Important: Any problem/outage arises in the Local Area Network of customer; (e.g. switches configuration or hardware malfunction, Cabling damage or other Passive infrastructure); resulting in the Service outage will not be applicable or counted towards Ooredoo HCS SLA commitment.

17.8 Service Availability Guarantee:

17.8.1 Ooredoo guarantees Service Availability uptime as per the appropriate SLA Matrix Table defined above. The service will be considered unavailable in the event of any unscheduled service outage on the OOREDOO network due to the transmission or equipment failure causing cent percent (100%) blocking of movements of packets ahead of the customer link and will be calculated on the monthly basis.

17.8.2 Service Availability is calculated using the following formula:

$$\frac{((\text{Hours in a day} \times \text{Days in a month}) - \text{Schedule Maintenance} - \text{Unavailability})}{((\text{Hours in a day} \times \text{Days in a month}) - \text{Schedule Maintenance})} \times 100$$

17.8.3 Scheduled Maintenance and Unavailability are measured in hours during the month involved.

17.8.4 Unavailability of Hosted Collaboration Service is when the customer is not able to access Ooredoo network from Ooredoo provided CPE.

17.8.5 If customer opt SLA for multi locations scenario, the committed availability shall be determined for overall network. The availability shall be sum of bandwidth weight and respective availability across all legs.

17.8.6 Service Unavailability will not include any unavailability resulting from:

17.8.6.1 Schedule Maintenance of OOREDOO Network;

17.8.6.2 An interruption during any period when the Customer elects not to release the service for testing or repair and continues to use the Service on an impaired basis;

- 17.8.6.3** Interruptions during any period when the customer has not released the service to OOREDOO for maintenance or for implementation;
 - 17.8.6.4** Acts or omissions of Customer (including the provision of inaccurate information knowingly or unknowingly), or any use or user of the service authorized by Customer or Customer caused outages or disruptions;
 - 17.8.6.5** Interconnections to or from and connectivity that is considered unauthorized as per the present or future telecommunication guidelines;
or
 - 17.8.6.6** Disconnection/s due to non-payment of OOREDOO's dues; or
 - 17.8.6.7** Reasons of Force Majeure.
- 17.8.7** Applicable Site hours of operation, excluding scheduled downtime, are measured monthly. A trouble ticket created in one month and closed in a subsequent month shall be included in the measurement for such later month. Ooredoo will track the time between report of trouble and restoration of service to determine availability.

17.9 Escalation Process

- 17.9.1** Should it not be possible to restore the service within the target commitments, the status will be escalated by the Ooredoo Technical Assistance Centre at more senior level within Ooredoo, who may allocate more technical resource as required to restore service. The customer will be advised as soon possible where Ooredoo technical staff consider that the service cannot be restored in the committed timeframe.
- 17.9.2** Corporate Help Desk: Ooredoo operates a Corporate Help Desk, which is the corporate customers dedicated point of contact when dealing with technical problem related to Hosted Collaboration Service covered by this SLA. The Corporate Help Desk is available 24x7x365, though depending on grade of SLA. Corporate Help Desk Toll free number: 8008000
