Discover a world where efficiency and reduced costs go hand in hand with Cisco Webex Teams services.

Ooredoo and Cisco Webex Teams services provide a complete set of communication and collaboration tools and cutting-edge features to transform the way that you communicate on the Ooredoo Supernet.

The Cisco Webex Teams service has revolutionised communication, enabling it to happen anywhere, anytime, with a simple, secure, complete, all-in-one business communications service.

Using Cisco Webex Teams, business customers can share their screens and white boards and make decisions in real time. Employees and clients can efficiently work together, using the latest technology to comment, share, or ask questions. On Cisco Webex Teams' secure space, available on a wide range of mobile devices, users can instantly share meetings, files, and conversations.

Simply communicate better with Cisco Webex Teams

With the Cisco Webex Teams solution, you can:

Message

Business messaging lets you prepare, share, and iterate on content. Enjoy 1:1 and team messaging in virtual rooms with persistent content and context for team interactions. Cisco Webex Teams services break down communication barriers and make it incredibly simple to work with anyone.

Meet

Connect teams and meet customers easily with the added benefits of messaging and content sharing before, during, and after the meeting. It's easy to schedule or join a meeting at a main office, a branch office, at home, on the road, or from a room-based video system. Every meeting is video-centric. Users shouldn't have to think about what type of conferencing they need before scheduling; after all, it's just a meeting.

Call

The service enables voice and video communications via mobile, desktop, and room-based devices. Simply connect your existing PSTN services to Webex to enjoy one-touch directory dialing and join meetings from anywhere on any device. Mobile users get features such as single number reach, single voicemail service, video services, and the ability to seamlessly move between devices during a call.

Designed for the way you do business

The Cisco Webex Teams service delivers a powerful set of communications services for all the ways you need to communicate. Maybe you're a startup business with an ad-hoc solution, or you have an outdated key system or PBX and want to upgrade. Perhaps you've already made the move to IP or deployed a cloud-based service and want to expand your capabilities even further. Cisco Webex Teams will take your communications to the next level by providing the benefits of a complete business collaboration service for everyone in your company: one service, one experience, for everyone!

The Cisco Webex Teams solution is...

Simple

Delivered entirely from the cloud, each element makes the user and administrator experience simple and intuitive. It's easy to use and easy to manage. The solution is offered on a simple subscription basis, so you can add services on demand.

Secure

Our award-winning Supernet, combined with our communications and cloud expertise, helps ensure security and reliability.

Complete

The best collaboration tools in one complete service delivers a great experience regardless of the location or the device. Message, meet, and call anyone, anywhere, anytime. And because we host the service in the cloud, it's always up to date.

Webex Board features and benefits

Feature	Benefit
Wireless presentation	<ul style="list-style-type: none"> No wires required to share a presentation, locally or remotely, from a laptop (HDMI available)
Digital whiteboard	<ul style="list-style-type: none"> Easily white board with the Cisco Webex Teams Pen or your finger on the Webex Board and automatically save content to a Cisco Webex Teams space Connects to white-boarding capability on any Cisco Webex Teams app-enabled device Annotate on shared documents (future software release)
Audio/video conferencing	<ul style="list-style-type: none"> High-quality video conferencing (Cisco Webex Teams and Session Initiation Protocol [SIP]) High-fidelity audio conferencing
Industrial design	<ul style="list-style-type: none"> Discreet built-in 4K camera is unimimidating, to help users feel comfortable when close to the screen Built-in microphones and wireless sharing add to the clean, no-wire aesthetics Fixed-lens camera uses an 86-degree-wide field of view to capture virtually the entire room High-resolution 4K screen shows detailed content beautifully
Usability	<ul style="list-style-type: none"> Easy-to-understand activity circles correspond to the basic activities and workflows that users need to get their work done Intuitive navigation, such as a home button and touchscreen, is a staple of mobile devices and familiar to users Consistent user interface and workflow across the Webex Board and Cisco Webex Teams app reduce the user's learning curve Familiar capacitive touch capability is the same as on smartphones and tablets, and allows for two-point multi-touch, which lets two people work on the board at the same time

Feature	Benefit
Continuous workflow	<ul style="list-style-type: none"> Cloud registration lets everything created on the Webex Board be stored directly and securely in the cloud and associated to a virtual Cisco Webex Teams space Team members can pick up wherever they left off on the Webex Board when they leave the physical room; work can continue from a different location, time zone, or device, such as another Webex Board or any other Cisco Webex Teams app-enabled devices (smartphones, tablets, laptops) <p>Webex Board and the Cisco Webex Teams service together provide end-to-end encryption, so your communications and content are secure</p>
Intelligent views	<ul style="list-style-type: none"> Powerful 4K camera captures high-resolution image of virtually the entire room Intelligent software algorithms enable future capabilities such as automatic framing for the best possible views and active speaker tracking (future software release)
Intelligent audio	<ul style="list-style-type: none"> Built-in 12-microphone array amplifies sound quality - as if a microphone has been extended to each speaker Automatically modulates the active speaker so that clear audio is delivered to the far end, whether the speaker is close to or far away from the Webex Board No microphone wires to detract from the aesthetics of the Webex Board Powerful microphones cover a room with 8 to 10 people
Intelligent Proximity	<p>Cisco Webex Teams Proximity and ultrasound pairing technology enable the following:</p> <ul style="list-style-type: none"> Webex Board automatically wakes up when it detects an activity to choose from Wireless sharing of documents from a laptop is enabled both within and outside of a conference call; connect seamlessly to personal and mobile devices using ultrasound (no need for dongles, adapters, typing in PINs, etc.) Basic endpoint control of the Webex Board can be done through a Cisco Webex Teams app-enabled mobile device (make and disconnect calls, etc.)
