1 Definitions

1. Inmarsat – the Inmarsat Satellite Telecommunications Company
2. Ooredoo – Ooredoo Q.P.S.C. (formerly (Qtel) Qatar Telecom Q.S.C)
3. Subscriber – The person or entity that enters into an agreement with Ooredoo to receive and pay for Service.
4. User – The natural person who actually uses the service.
5. Inmarsat Aero: Provides analog voice/fax/data services for aircraft
6. Inmarsat B HSD: Inmarsat HSD service provides high speed data (HSD) services at 56, 64 or 128 kbit/s
7. Inmarsat B v/f/d: Inmarsat B service provides digital voice services (v), telex services, medium speed fax (f)
8. /data services (d) at 9.6 kbit/s and high speed data services at 56, 64 or 128 kbit/s
9. Inmarsat M v/f/d: Inmarsat M service provides voice services (v) at 4.8 kbit/s and medium speed fax
10. (f)/data services (d) at 2.4 kbit/s
11. Kbps: Kilobits per second
12. L-Band: The L-band is defined as frequencies in the range 1626.5 to 1675 MHz (Earth to Space) & 1518MHz to 1559 MHz (Space to Earth) for Mobile Satellite Services.
13. Satellite Access Station: or "SAS" is a ground station interfacing with one or more Satellites, with an interface to the terrestrial network in support of any services
14. Satellite Terminal: a terminal suitable for use of the service
15. SIM Card: a subscriber identity module card which uniquely identifies a satellite terminal.
16. SMS: Short Messaging Service
17. Subscriber: a person who contracts to subscribe to the service
18. Uplink: speed at which the satellite terminal transmits data
19. BGAN HDR: A portfolio of high data streaming rates for broadcasters, media organizations and governments looking to deliver superior video quality anywhere in the world.
20. BGAN Link: A broadband data service for users who require high monthly volumes of always-on Standard IP data for sustained periods of operation.

21. BGAN Explore 510 and Explore 710: provides simultaneous voice and broadband data communications globally from small and lightweight satellite terminals. The BGAN terminal can be connected to a portable PC or smart device using Standard IP to access the internet for applications such as web browsing and email, or choose from a range of guaranteed Streaming IP rates to meet all your data, voice and video needs. The smallest terminals are designed to suit single users. The larger terminals offer a WLAN capability and are particularly suitable for small teams that need to establish a temporary office for an extended period. They are also suitable for users requiring higher bandwidth to enable applications such as live broadcasting
22. IsatPhone / IsatPhone 2 / IsatPhone Pro: Handheld satellite phones provide a clear, dependable voice service anywhere on the planet.

2 Tariff Terms and Conditions

23. This tariff is for a permanent standard service.
24. This tariff contains charges and conditions applicable to the provision of Inmarsat mobile services.
25. From time to time Ooredoo may publish promotions and readjustments on its webpage or by other means. Such promotions and readjustments will automatically modify this tariff as specified by Ooredoo as of the date Ooredoo publishes such promotions or readjustments.
26. Ooredoo may offer up to 20% discount on the products or services from time to time on the permanent or promotional basis as per the Article 3.9 of the Retail Tariff Instructions (RTI).

3 Service Description

27. The Inmarsat service enables customers to make and receive national and international voice calls carried over a satellite network. The handset enables use of the Inmarsat network (Satellite).
28. The Inmarsat service enables customers to use volumes of Standard IP data in one location with BGAN to provide simultaneous voice and broadband data communications globally from small and lightweight satellite terminals.
29. Service duration: The minimum contractual period for the Inmarsat Service is 3 months.

4 Service Definition

30. Inmarsat (Isatphone2, BGAN) Sim card activation charge: 55 QR per sim card.

31. **Inmarsat GSPS Service (IsatPhone2)**

31.1 Global satellite phone system service via Inmarsat L-Band Satellite Network that offers subscribers Voice, SMS, Voice mail, GPS and low speed data access, through a satellite terminal, which is called an Inmarsat IsatPhone2. Every subscriber is identified by a GSPS SIM card that is inserted in to the satellite terminal.

31.2 The IsatPhone2 offers subscribers:

31.3 Voice using 2.4 kbps voice codec

31.4 A bit rate of 2.4 kbps fax and data

31.5 GPS locator screen

31.6 SMS, Voicemail, Missed call notifications

31.7 It also offers other services such as safety, tracking and emergencies

32. **BGAN Service**

32.1 Broadband Global Area Network service via Inmarsat L-Band Satellite Network that offers subscriber's voice and data access, through a satellite terminal, typically an Inmarsat BGAN. Every subscriber is identified by a BGAN SIM card, which is inserted in to the satellite terminal. The satellite terminal acts as an access point and the broadband service is accessed from a smart device or computer through a control application, which provides full control over access to the service as well as visibility of data usage from each device sharing the broadband connection.

32.2 Inmarsat Broadband Global Area Network service through Inmarsat L-Band Satellite Network that offer subscribers

32.3 Simultaneous voice and broadband data at a speed of up to 492 Kbits/s in addition to SMS, ISDN and Streaming

32.4 Send / receive emails, file transfers, audio / video conferencing, broadcasting, browsing, etc.

33. **Inmarsat Terms:**

GSPS	Global Satellite Phone Service.
BGAN	Broadband Global Area Network service.
MSS	Mobile Satellite services
I4	Inmarsat 4th generation of satellites
MtF	Charge for Voice (Airtime) to Fixed line number
Data MtF	Charge for Data call per minute to Fixed (Dial up)
Voice to Cellular	Charge for Mobile (Airtime) to GSM operators
Voice Mobile to I4	Charge for Voice to other Inmarsat 4 Satellite services (such as Isat hub & BGAN)
GSPS Voice	Charge for Voice call from / to Voice Inmarsat mobile satellite phone
Inmarsat GAN/Fleet/Swift64 Voice	Charge for Legacy Inmarsat Voice, Fax and Data Services
Iridium Voice	Charge per minute of a call originating from mobile phone to another Iridium mobile phone

HDR Half Channel Symmetric	Per min	28 units
HDR Full Channel/64K	Per min	32.00 units
HDR Full Channel Symmetric	Per min	38.00 units

- 35.6 Voucher (0 units): for validity extension only and no units are added.
- 35.7 Units: Free unit of minute or SMS per voucher.
- 35.8 Charges Notes: Charges above exclude the satellite terminal required for the service.

5 Service Provider obligations

- 36. Commencement of Service: The service will commence from the time the subscribers request to start the service.
- 37. Service Validity: The Business Satellite Service will continue to be active and valid subject to payment of the Subscriber's bill at the end of each monthly billing cycle.
- 38. Service Duration: The minimum contractual period for the Business Satellite Service is 3 months.
- 39. Post-paid timing: The Post Paid Mobile Service becomes payable at the end of each monthly billing cycle and is payable for each subsequent month, until the Subscriber elects to change or cancel their subscription.
- 40. Service Availability and Limits: Certain factors, such as network changes, traffic volume, transmission limits, service outages, technical limitations, signal strength, customer device, terrain, structures, weather, or other conditions that may arise from time to time, may interfere with actual service quality and availability.
- 41. Calls may be interrupted, dropped, refused or limited. Ooredoo will not be liable for any service limits due to these conditions that may arise from time to time, subject to our statutory, licence and other obligations.

6 Subscriber obligations

- 42. Equipment: The Subscriber shall comply with any reasonable request by Ooredoo concerning the configuration of their Mobile Device or the use of the service.
- 43. **Resale:** The Subscriber cannot resell the service if (s)he does not qualify as an Eligible Person, within the framework set by the Class License for the Resale of Retail Telecommunications Services issued by the Communication Regulatory Authority (CRA) (<https://www.cra.gov.qa/en/document/class-license-for-the-resale-of-retail/telecommunications-services>) and without a prior written approval by Ooredoo. Failure to comply with the above provision will result in the Services being immediately terminated and in the Subscriber being held responsible for the legal, regulatory and financial consequences of his/her behavior.

44. SIM Card: The Subscriber must promptly notify Ooredoo if the SIM Card is damaged. In the event of loss or theft of SIM Card, the Subscriber must notify Ooredoo within forty-eight (48) hours of becoming aware of such loss or theft.
45. The customer shall comply with any reasonable request by Ooredoo concerning the configuration of their devices and/or the use of the Service.

*****END OF TARIFF*****
